"S MARKET TRADING IS SMALLEST IN YEARS

Since 1888 Has Total Turnover in Full Five-Hours' Session Been So Light.

OSSES OF 1914 NOW HISTORY

Vall Street Is Turning More Hopefully to 1915, and Large Interests Are Preparing for Advance in Prices and Revival of Interest.

BY BROADAN WALL. NEW YORK, December 29.—Cheerfulness revailed in Wall Street to-day, although his stateemnt was not altogether appre-

this stateemnt was not altogether appreciated by the members of the Stock Exchange who landled the smallest May's business, for a five hours' session, in the last twenty-six years.

The losses of Milare now a matter of history. One of the most encouraging features for the future is the first outward sign of preparation for a return of speculative activity on the floor.

Some of the large interest have been in consultation preparing plans for movements in their speciaties and a quickening of public interest by an advance in market quotations. This is the first time in many months that any concerted movement to advance prices has been spriously considered. This advance is understood to be safed to start early in January.

An official of a large financial institution to-day said:

"I consider conditions tipe for a more active and higher stock market. Investors

on to-day said:
"I consider conditions ripe for a more citive and higher stock market. Investors ave cleared up all offerings of high grade lord-term notes and the demand for bonds the older issues is greater than the supply. New issues can only be brought out hen support is given to the better class stocks."

ply. New issues can only be brought out when rapport is given to the better class of stocks.

Money conditions never have been more favorable. Four-month loans are offered stockbrokers at 2% per cent. So per cent of the collateral to be railroads, and so per cent industrials.

Brokers were turther encouraged by a renewal of the rumor that Governor Whitman will take early steps to abolish the tate tax of \$2 on stock sales.

Sinculations were unimportant to-day, steel held steady at 48, and other leading issues moved only fractionally. Western Maryland lost 2 points from the announcement that the interest due January 1 would be deferred. It is understood inside interests propose to reorganize the property, issuing one mortgage on the railroad, another on the coal property (which is considered very valuable), and the third on the terminals. This reorganization, it is believed, will be carried out without calling upon the stockholders for further contributions as assessments are stimetimes called. It is recalled that blocks of these securities were placed in Berlin, where large amounts are still heid.

Bonds are also as dull as stocks. Rock Island issues recovered rather sharply, and the Investment demand for Consolidated as is held the price around 1995, Western Maryland dropped from 516 to 56, while Frisco is rose to 52, an advance of 4 points from the recent low, Boston houses were luyers of American Telephone and Telegraph convertible 415s at advancing figures. Speculative holdings of securities in the smallest ever known and professional trading can be accurately measured by the volume of to-day's business, the smallest since 1883. These are two important factors as a basis for improvement.

NEW YORK December 29.—Total sales on the Scoke Exchange to-day were the small-

1888. These are two important factors as a basis for improvement.

NEW YORK December 29.—Total sales on the Stock Exchange to-day were the small-cet for a full session since February, 1888. Less than 59,000 shares changed hands, and trading was limited to about a score of so-called favorites. The movement was narrot: threughout with a lowering trend, leaders yielding as much as a point at the outset, but making general recoveries on settlement of short contracts. This completed the list drifted almlessly to an apathetic, but firm close.

Of all the important stocks, St. Paul failed to regain its decline, the weakness being associated with rumors of an impending bond or note issue. These same rumors applied to other railroads, as well as industrial companies whose pressing financial requirements were matters of general knowledge.

Missouri, Kansas and Texas preferred was the only addition to the list of stocks touching their minimum despite a favorable statement of earnings for November. Resctoration of the regular "pan handle" preferred dividend—was received with interest because the company is controlled by the Pennsylvania company, which recently made a drastice cut in its dividend.

A slight advance in the prices of certain finished products was halled as an indication of betterment in the steel trade. Other lines of business showed further indications of recovery, chiefly as a result of war contracts.

tions of recovery, chiefly as a result war contracts, a additional gain of almost \$5,000,000 gold the most interesting feature of the Bank Germany's weekly statement. London's cket was steady with expectancy reding next week's resumption by the ording next week's resumption ording next week's resumption tock Exchange.
The local bond market was irregular with enewed weakness in low grade issues.

COTTON MARKETS.

NEW YORK, December 29.—The cotton market was quiet to-day, and trading seemed to be largely in the way of evening up accounts for over the holidity, but there was a little Southern selling. Fluctuations were more or less bregular, with the close steady at a net advance of 3 points on January, while other months were 2 to 6 points lower. The opening was steady at a decline of 1 to 5 points under a renewal of the ealizing movement. December was relatively easy at the start, probably owing a featively easy at the start, probably owing to the effectively of the ealizing movement. December was relatively easy at the start, probably owing also a notice day for new style. It was also a notice day for new style January contracts, but none seemed to have been issued, and the December cotton seemed to be well taken around the initial figures. The market soon steadled, and netive months sold a point or two above the closing figures of the lost night on covering, and a little livestness buying which was encouraged by the continued absence of Southern spot pressure and a hope that Washington accountains with Great Britials would result in a stimulation of the export movement. Later however, the market eased off again under renewed realizing and closed at practically the low point of the day. The latest obschal estimate to the Legyptian crop places the yield at 600,000 to 6,220,000 cantars or considerably under the figure circulating earlier in the season. Member of the Cotton Exchange to-day yoted in favor of the amendments to the by-laws increasing commission on foreign business.

ton, but it was offset, to a considerable extent by the fresh buying which came in on the soft spots. Professional traders were inclined to sell short around the highest levels on the theory that a reaction from the advance was due. Fresh trading was restricted on both sides of the market by the nearness of the triple New Year holidays. Shorts also were held in check by the narnes amount of cotton on ship board in American ports, as it pointed to heavy month-end clearances.

Wheat Will Advance snarply.

Wheat according to the weekly letter of the Dunlop Mills, Inc. will soar again. The deflicit in the European crops, and the heavy demand from the war zone, it is predicted, will cause the prices to advance sharply. On the present basis of exportation, it is stated, the American surplus will soon be exhausted.

Christmas Savings Club Suggestions From Other Cities

CHRISTMAS SAVINGS CLUBS,

Such as we are conducting, are very popular in many other cities and towns in this and other States.

IN SEVERAL CITIES

100 or more members of a congregation have joined and will use their combined savings as a fund next Christmas towards paying church debts.

IN SEVERAL TOWNS

The members of Sunday-school classes have joined, and in each instance will club together and use the money for the purpose of buying their teacher a present.

IN OTHER TOWNS

Societies, Churches, Sunday-schools, Charit and other organizations have joined to say money for a specific purpose.

OUR CLUB REMAINS OPEN SOME TIME YE

THE plan is an excellent one, and can be applied 1 a number of commendable enterprises. The sm amounts payable weekly into the Club can be space by each person without inconvenience, and whee number of persons associate together for a special pose the combined results of their efforts will be a l sum, which may be applied as a Christmas offering used in other ways for a good cause.

OPEN SATURDAYS 9 A. M. TO 8 P. M. It's An Easy Way to Save Money. A Sure Way to'y Money.
